

## **Believe It**

Draw the line in the sand. Arrive at a choice. From this instant forward you'll draw in more revenue and produce a structure and habits that support a fresh and bettered level of wealth. You have to stand for this. You have to be thirsty for change.

You have to trust you are able to do this. Even if you're frightened that this time won't be different from the other times, you've made this selection. You'll take a few actions now that won't let you slip out the back entrance on yourself. Take a bit of effort now to back yourself in the larger goal.

What is it precisely that you wish to be different? If you wish more revenue to come in the door, how much and how frequently? Do you wish an additional ten thousand this year or monthly? Do you wish your business to gross an additional million or net an additional million? When? This month? This year? By next year? You have to decide or it becomes one of those "someday" things.

If, an amount feels unreachable, then make it littler. If the amount you've selected feels too little and you'll still be wishing you had more revenue, than make it larger. Above all, whatever sum of money you're deciding to have, mean what you state. This is so easy, but this is where most individuals fall and the rest their efforts don't generate successful results.

And one additional thing, its nobody else's business what numbers you pick. Some individuals may judge your numbers as being too little or large based on their own life. As long as you feel firm about your selection and you're not whimpering out on yourself, go on it!

What will you spend the money on? Once more, this is your money and you have to be emotionally attached to it. Where is it going to go? If you're going to pay debts, arrive at a plan for how you'll accomplish it and then choose where the money will go when the debt is paid back. Now you've the origins of a plan. That was simple, eh?!

If you're going to save income, how much and to where? You might have to do a little imagining and enquiry to perfect this step. If you wish to expand your business with some of this additional money, it might take you a little extra planning, but you'll be very energized. This exhilaration will help move you towards success.

Now, clear up and put down how this is going to feel once achieved. I recognize to a few of you this step will sound like a waste. Don't skip over this step. You need to make this goal so real in your brain and heart that you run, not walk, to more riches. This step is essential in both technique and the Law of Attraction.

Produce precise actions and habits that you'll apply beginning now to support this goal of more riches. You might only require a couple of actions. This isn't rocket science. For a few of you, it might merely be a matter of producing accountability. You already understand what to do. For a few of you, it might be about producing an entire new relationship with income.

I know a couple of you need to quit your job or remove or add fresh team members. Yes, you might dread a few things on your list, but will you be glad once you do it? If the answer is yeah, keep it on your list. Dissect big actions into little steps so they're digestible.

Inspired action. Many of you've heard this a million times but you're still not applying it. Are you taking actions that feel great? Are they somebody else's "should's" or are they really something you've selected to do. Your intuition is speaking to you. Are you hearing?

Who's going to support you? Are you invested enough to see this goal through? Will you believe that you'll succeed even when you don't believe there are any signs of betterment over a long time period? Who's going to help you in a way that really works for you? Consistency is key.

If you truly wish to have more money in your bank account and wallet, then print this out and follow the steps in the next twenty-four hours. This whole process might take as little as an hour or two.

How passionate are you about becoming wealthy? It's not a matter of "if" you'll be more prosperous, but "when."
